

3-1. 전자저널 이용방법 > Pubmed 검색을 통한 방법

The image shows a composite screenshot. On the left is the Sejong General Hospital Medical Library website, featuring a navigation menu with '우리병원 Pubmed' (Our Hospital PubMed) highlighted in a red box. On the right is the PubMed.gov search results page for the article 'Catecholaminergic polymorphic tachycardia: underestimated and overtreated?' by Pflaumer A. A red arrow points from the '우리병원 Pubmed' link to the PubMed search bar. The PubMed page includes the article title, author information, keywords, and a 'Full text links' section with a 'BMJ Online First' link that also has a red box around it. The PubMed page also shows options for 'Format: Abstract', 'Send to', 'Save items', and 'Similar articles'.

3-1. 전자저널 이용방법 > 저널명을 이용하는 방법

The screenshot shows the SJH Sejong Hospital online platform interface. At the top, there is a search bar with a dropdown menu for '저널명' (Journal Name). Below the search bar, there are two main filter buttons: '저널명' and '과별 주요 저널' (Specialty Main Journals), with the latter highlighted by a red box. Underneath, there are several specialty filter buttons: '감염내과', '내분비내과', '마취통증의학과', '산부인과', '소아청소년과', '소화기내과', '신경과', '신경외과', '신장내과', '심장내과', '영상의학과', '응급의학과', and '흉부외과'. The '심장내과' (Cardiology) button is highlighted with a red box. A callout box with a red border contains the text: '※ 해당 페이지는 과별로 이용빈도가 높은 저널만 출력됨. (과별 주요 저널에서 검색되지 않을 경우, 저널명으로 한번 더 검색해 볼 것.)' (※ This page only displays journals with high usage frequency by specialty. (If not found in the specialty main journals, search again by journal name.))

Below the filters, the search results are displayed. The search criteria are '총 검색건수 21' (Total search results 21). The results are shown in a table with the following columns: '순번' (No.), 'PROVIDER', '저널명' (Journal Name), 'ISSN', 'Coverage', and '접속방식' (Access Method).
